COMMENTS:

Much of Dennis's work is effected by the poor quality of his handwriting. Dennis is a sporadic worker, engaging in daydreaming, thus not completing his work on time. We hope he will overcome this short coming.

Parent's report on the child:

We feel that Dennis should be doing better than this. I plan to have him do drill work in handwriting at home. Will you give us exercises which you think would be most beneficial?

I do feel that the temptation to listen to the sixth grade work makes it harder to concentrate on the work at hand.

COMMENTS:

Dennis is still spasmodic in accuracy in Arithmetic. We are working to help him become more consistent and thorough.
