The Object: To slide the Red Car "X" (your car) through the opening in the playing grid frame.

Set Up: Select a puzzle card and place the cars and trucks on the playing grid as indicated by the illustration.

To Play: Shift the blocking cars and trucks up and down, left and right, until the path is cleared to make good your escape.

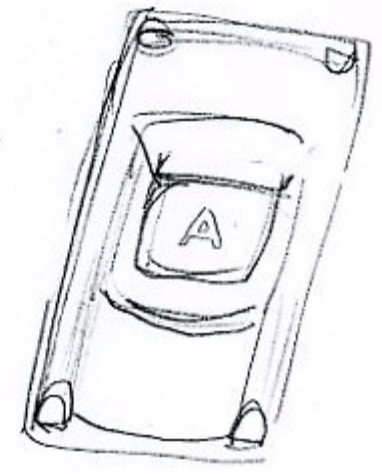

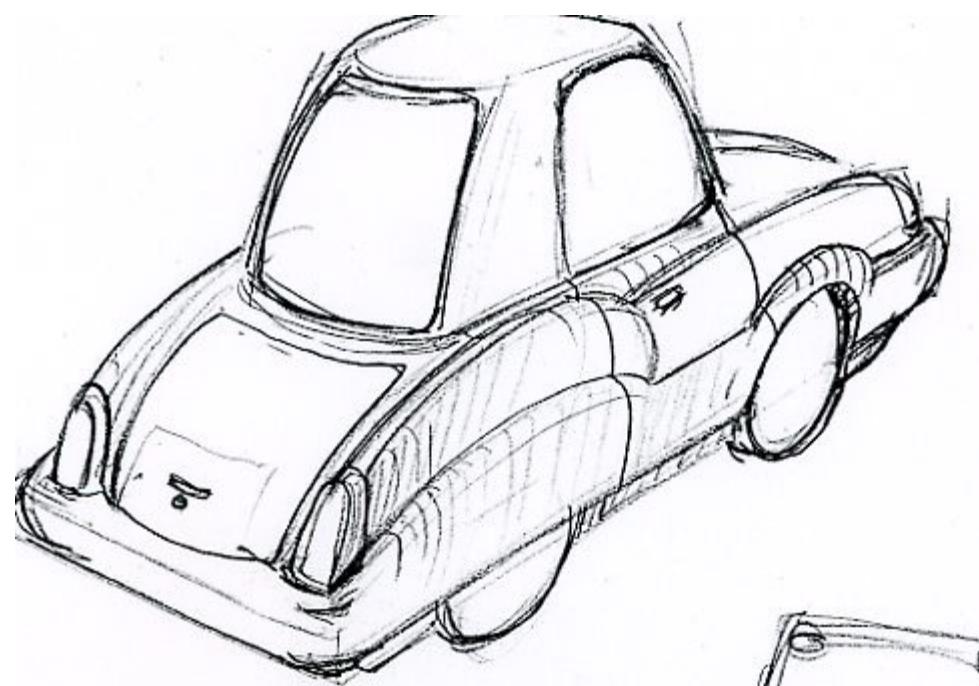

One Rule: No lifting of blocking cars or trucks off of the playing grid surface.

If You're Stuck: If you find yourself hopelessly gridlocked, just dump the pieces out of the frame, set up and start over.

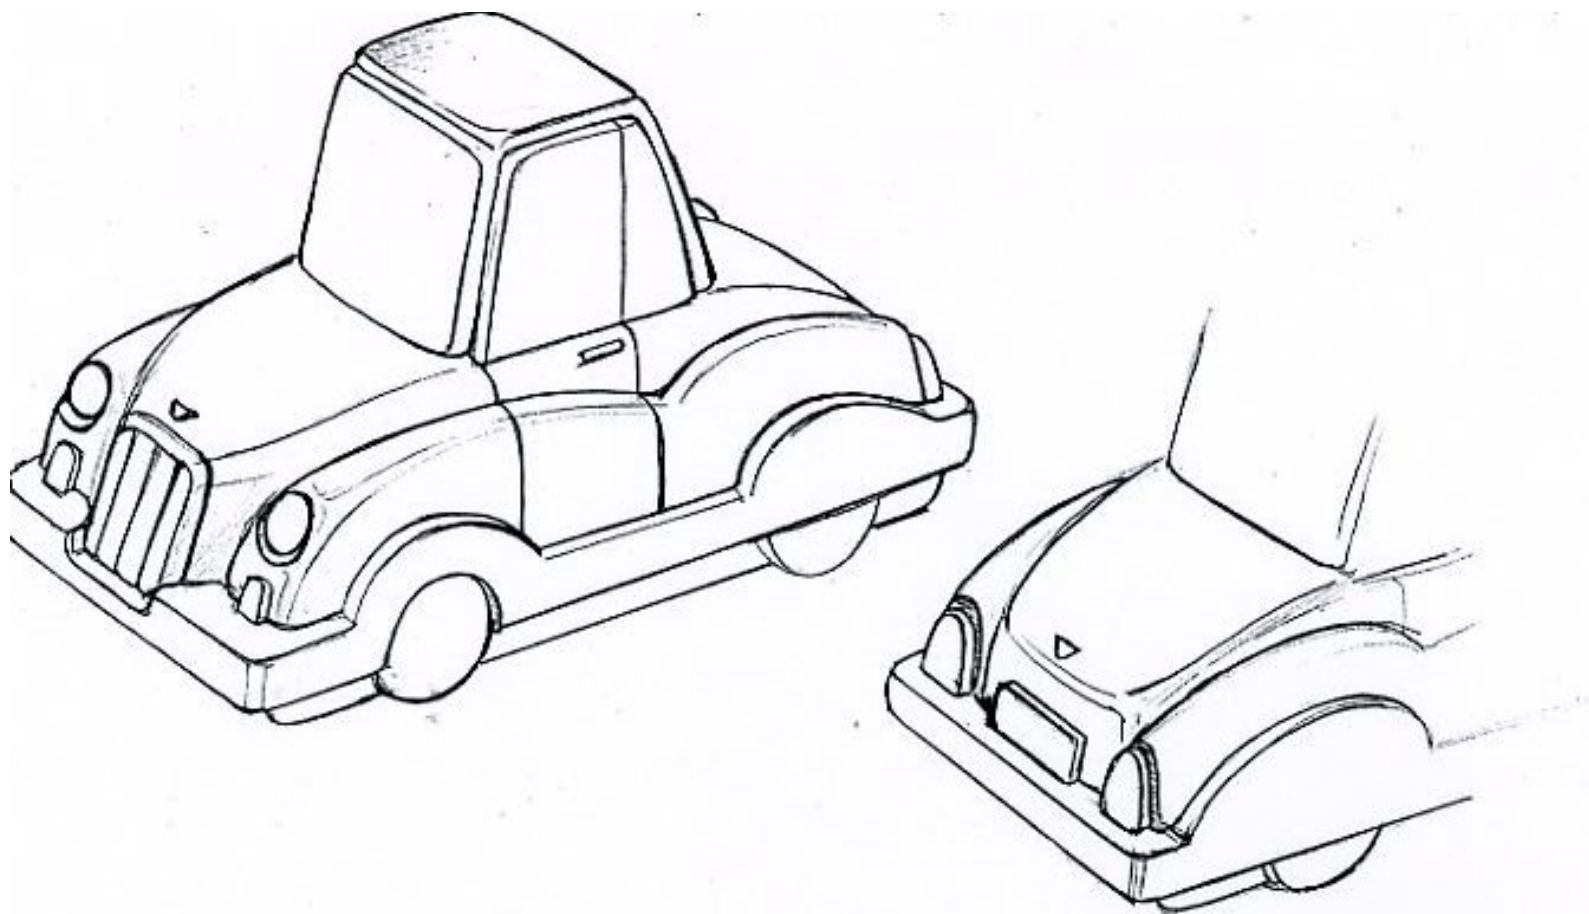

If Your Brain Stalls: The complete move sequence solution is printed on the back of each puzzle card.
