

ThinkFun Game Club – How and Why it Works

- ThinkFun Game Club is a place where students can come to play fun Mind Challenging Games in a structured, nourishing environment.
- Everyone gets their own game to play... full engagement all the time.
- Children play together at four person stations. Players are encouraged to help each other with rules and game strategies.
- Each person plays at their own pace and their own level.
- ThinkFun Game Club is not recess, it is a disciplined program. When playing here, kids open up to discussing topics ranging from thinking strategies to dealing with frustration and impatience... and Game Club always finishes with a group discussion about what students thought and felt as they played.
- When done right, ThinkFun Game Club results in happier, more engaged children with a heightened general spirit of inquiry and an improved vocabulary for how to express the ideas they will have and the questions that they will want to ask.
- Our online Teacher's Guide clearly and directly explains how to organize, launch and run a ThinkFun Game Club program in your school. Also, because the Guide resides on our website, teachers and committed parents can post their stories and exchange ideas through the web. It's much easier than you would think.
- ThinkFun's mission is to help children realize their full potential by challenging their minds. Our games and our ThinkFun Game Club programs really do help kids become happier and more confident through improved mind skills. Come join us, launch a ThinkFun Game Club in your school!
